

I am a listener of K-LOVE radio in Minnesota. I feel it would be a travesty to replace K-LOVE radio with some LPFM broadcaster's programming. K-Love is a vital asset to the community and its listeners. K-LOVE provides hope and encouragement to so many desperate people through their positive and uplifting broadcasts on a daily basis. It would be an absolute shame to take off the air one of the few stations that actually still has a positive and beneficial programming format!
